

INDONESIAN MEDICAL ASSOCIATION

Zaenal ABIDIN*¹

In October 2011, the Indonesian Medical Association held a National Workshop in the city of Pekanbaru, Sumatra. This workshop evaluates what has been done by the Central Executive Board of the association in the first two years in office, and use the remaining year to finish what has been tasked to the board.

The Indonesian Ministry of Law & Human Rights, and the Ministry of Health asked the association to give second opinion and medical evaluation for inmates in prison or in rehabilitation places.

The association was appointed by the Jakarta Regional General Election Committee to do medical check-ups for the governor and deputy governor candidates. This system was also adopted by all provinces and regencies throughout the country.

The association is involved in the discussion for drafting the Medical Education Law with the

government.

Active in preparing the people to enter the era of universal health care throughout the country, where health insurance will be foremost for everyone.

Conducted several workshops regarding tobacco control.

Conducted several roundtable discussion about Medical Education in Indonesia with the Indonesian Academy of Science.

Also held MDG discussions with the theme: 'Beyond the MDGs: Indonesia's role as a Middle Income Country on HIV and Sexual Reproductive Health and Rights.'

At the WMA Council Session in April 2012 in Prague, we invited the WMA to hold future meetings in Indonesia, and at the WMA General Assembly in October 2012 in Bangkok, it was confirmed that the April 2013 WMA Council Session will be held in Bali, Indonesia.
